

INSTITUTIONAL PROFILE

PARTNERSHIP OPPORTUNITIES

Working together for humanity.

For sustainable infrastructure and humanitarian
action serving communities in Niger and beyond.

COMPANY PROFILE & HUMANITARIAN PARTNERSHIP DOSSIER

Mosques • Clean water

Education • Solidarity

ADAMOU ABOUBACAR MIKA

Managing Director • MIKALO SARL

ENTREPRENEUR & COMMUNITY DEVELOPMENT PARTNER

Building reliable partnerships to improve access to essential services in
Niger and beyond.

TAHOUA • REPUBLIC OF NIGER

A hands-on commitment to communities

I am Adamou Aboubacar Mika, Managing Director of MIKALO SARL, a company based in the Tahoua region of Niger. My activities combine construction project delivery, operational supervision and support for local development initiatives, with a particular focus on social and humanitarian projects.

AREAS OF EXPERTISE

01

RELIGIOUS INFRASTRUCTURE

Construction, rehabilitation and supervision of mosques adapted to local community needs.

02

ACCESS TO CLEAN WATER

Boreholes, water-related infrastructure and community water-supply facilities.

03

EDUCATIONAL FACILITIES

Classrooms, learning spaces and educational infrastructure.

04

PROJECT MONITORING

Budgeting, contractor coordination, progress checks and photographic reports.

TAHOUA

MULTIPLE MOSQUES BUILT AND FORMALLY HANDED OVER

Throughout the Tahoua region, through projects funded by humanitarian partners.

Projects focused on the most urgent needs

Our approach prioritizes practical projects designed around needs identified by communities and scaled to each partner's funding capacity.

PARTNERSHIP PRIORITIES

01

MOSQUES

Construction and rehabilitation of places of worship in underserved communities.

02

CLEAN WATER

Boreholes, pumping equipment and facilities to improve access to water.

03

EDUCATION

Classrooms, school facilities and Qur'anic learning spaces.

04

SOCIAL SUPPORT

Assistance for orphans, vulnerable families and local relief initiatives.

05

ECONOMIC EMPOWERMENT

Small-scale businesses, farming and community livestock projects.

06

COMMUNITY HEALTH

Small facilities and support to improve access to healthcare services.

GEOGRAPHIC BASE & REACH

Hands-on experience in the Tahoua region, with openness to projects throughout Niger and internationally, depending on identified needs and partnerships.

Mosques and community facilities in use

These photographs highlight facilities and community gatherings associated with projects that I wish to present to prospective partners.

MOSQUE IN USE

General view of worshippers gathered outside

MOSQUE FAÇADE

SIDE VIEW AND SURROUNDINGS

The photographs illustrate the attention given to the exterior appearance of the facilities and their value to the communities they serve.

References that can be verified on site

Among the mosques formally handed over, six projects illustrate our experience, including facilities at recognizable public sites and a 150 m² mosque with a concrete slab roof.

TAHOUA

MULTIPLE MOSQUES BUILT AND FORMALLY HANDED OVER

Across the Tahoua region, with financing from humanitarian partners.

SIX REFERENCES OF COMPLETED PROJECTS

LOCATION / FACILITY	AREA	REFERENCE
Tahoua Governor's Office	80 m ²	Government site
Central Town Hall (City of Tahoua)	50 m ²	Municipal institution
Tahoua Wrestling Arena	80 m ²	Well-known public venue
Tahoua Justice	50 m ²	Institutional site
Centre Bangui	128 m ²	Bangui locality
Maini 2	150 m ²	Concrete slab roof

Selected references from completed and formally handed-over mosques.

FINANCING AND CONSTRUCTION ROLES

Humanitarian partners provided the financing; MIKALO SARL carried out the construction works. These references can be verified on site, subject to applicable access conditions and authorizations.

Facilities designed for lasting community use

Beyond construction, a project's quality is reflected in its everyday use and the way local residents make it their own.

COMMUNITY GATHERING

Interior view during a gathering

INTERIOR FACILITIES

Prayer space and visible equipment

For each new project, a technical handover and photographic documentation can be organized together with the funding partner.

Water points serving rural families

Access to water is among the most urgent needs in rural villages. The photographs below show a water point and its surrounding community.

WATER POINT AND BENEFICIARIES

Women and children near the facility

SITE AND INFRASTRUCTURE

HAND PUMP

Our goal is to work with partners to develop equipment suited to local needs, with maintenance arrangements that can be sustained over time.

Partnerships built on trust and accountability

PARTNERS WE ARE SEEKING

NGOs, foundations, charitable institutions and individual donors interested in supporting humanitarian projects in Niger and beyond.

- United Arab Emirates
- Saudi Arabia
- Kuwait · Qatar
- Europe
- Other international partners

OUR WORKING METHOD

1

Assess

Site visits and consultation with beneficiaries.

2

Plan

Study, cost estimate, schedule and responsibilities.

3

Deliver

Coordination and quality control of the works.

4

Report

Progress reports, photos, records and handover.

A CLEAR MANAGEMENT FRAMEWORK

Humanitarian funding may be managed by an NGO or another duly authorized entity, in accordance with applicable rules and funder requirements. MIKALO SARL may act as a technical contractor or implementation partner under separate agreements and contracts. Budgets, supporting documentation and reporting arrangements will be agreed with each partner.

LET US DISCUSS A FIRST PROJECT

I would be pleased to share identified field needs, preliminary cost estimates and illustrated records of completed projects.
